Thanks, Allison. Helpful comments as usual.

**Ex. 5 - Deliberative**

## Ex. 5 - Deliberative

**Ex. 5 - Deliberative** We didn't get new information during the comment period on the adequacy of the FIFRA labels, and if anything, we now have more information for disapproval. But I'm going to work on the issues paper now, which hopefully will help.

This is a bit of a strange work week for my hours, but I'll try to give you a call around your time in the afternoon to talk with you more on the issues paper, too. Just before I call you, I seem to get calls from other people on pesticides, but I'd appreciate connecting with you one-on-one before the manager's meeting.

Hi Jenny--

Wow! Working late based on the time your email was sent! I think this is coming along. My comments are attached. Since it was getting a little messy, I highlighted the new comments I added in yellow so you can find those easily.

I actually think we have 3 options for mngt team to consider:

## Ex. 5 - Deliberative

Let me know if you have any questions.  
Allison

Thanks all for great suggestions, edits and reorganization. Here's the second version of the rationale. Again, this is the key document, so I appreciate all the careful review.

I talked with most of you individually, so things have been evolving with each conversation. Please look at the conditions for approval as I added a couple since I last talked with people in the afternoon. Here's

an update on where we're at:

We're down essentially to two options to present to management:

# Ex. 5 - Deliberative

A reminder that the briefing for management on pesticides is Wednesday, August 20 from 12-2pm PST/1-3pm Mountain. I'm updating the issues paper for management based on this rationale document. Please let me know if you're interested in coming and I'll forward the meeting and agenda to you. You only need to come for the pesticides piece.

- Jenny
